NEW QUESTION: 1

Refer to the exhibit.

A beauty brand is planning to re-platform their existing website onto B2C Commerce. As part of the re-platform they will create a new social community where beauty insiders can view how-to videos, share tips, and favorite products. As part of the overall solution, the beauty brand is going to implement 82C Commerce, Experience Cloud, and Salesforce Identity. Each beauty insider can store and update important profile and commerce information like email, phone number, beauty preferences, and saved addresses.

Which application should a Solution Architect recommend to set up the primary profile after reviewing the workflow and attempting to minimize migration of customer profile data?

- A. Salesforce Identity
- B. Experience Cloud
- C. B2C Commerce
- D. Service Cloud

Answer: C

NEW QUESTION: 2

Ideally, a project manager should be selected and assigned at which point in the project life cycle?

- A. During the initiating processes
- B. During the project planning process
- C. Prior to the beginning of the development phase of the project life cycle
- D. At the end of the concept phase of the project life cycle

Answer: A

Explanation:

When the project manager is selected and assigned to the project during initiation, several of the usual start-up tasks for a project are simplified. In addition, becoming involved with project activities from the beginning helps the project manager to understand where the project fits within the organization in terms of its priority relative to other projects and the ongoing work of the organization. NEW QUESTION: 3

A customer requests a Proof of Concept for virtualization. To ensure a seamless deployment of virtualization, the customer needs to evaluate the various hypervisors and the associated management suites that integrate with the existing HPE server, storage and networking infrastructure.

Which virtualization solutions should the architect recommend to the customer for the Proof of Concept (Select two.)

- A. Microsoft System Center
- B. Citrix XenApp
- C. Integrity VM
- D. VMware vCenter
- E. Kitematic by Docker

Answer: B,D

Explanation:

Explanation/Reference:

Explanation:

HPE proof of concept depends on the system you choose to install on HPE servers. It can either be Citrix XenApp or VMware vCenter. Both are virtualization platforms run optimally on HPE servers.
