- C. 2
- D. 3

Answer: A,C

NEW QUESTION: 4

DRAG DROP

Drag the Cisco WCS report from the left and drop it on the category it reports on to the right.

Answer:

Explanation:

Explanation:

Cisco 640-722 Exam

Interferers can not only affect your WiFi communication, but also violate security policies. Some of the common interferers are jammers, video cameras and even Bluetooth in certain cases. Once a device is categorized as security risk interferers, Security Risk Alert is sent to the PI whenever it is detected in the network. All categories of interference can be designated as security Risk - and is customizable under user control. This allows modeling of individual networks policies. The Configuration Audit report displays the differences between WCS and its controllers. The PCI DSS Compliance report summarizes your Wireless LAN Security components with reference to the Payment Card Industry (PCI) Data Security Standard (DSS) requirements. PCI DSS compliance is required for all merchants and service providers that store, process, or transmit cardholder data.

Executive Summary This report displays a quick view of your wireless network. It provides details on LWAPP versus autonomous access point usage, associated client counts in the network, and guest client counts in the network. This report contains the following settings and scheduling parameters:

Settings

Report Title - If you plan to use this as a saved report, enter a report name.

Reporting Period

-

Last - Select the Last radio button and a period of time from the drop-down list. -

From - Select the From radio button and enter the From and To dates and times. You can type a date in the text box or click the calendar icon to choose a date. Select the hours and minutes from
