NEW QUESTION: 1

DRAG DROP

Answer:

Explanation:

NEW QUESTION: 2

An organization has internal applications that require block, file, and object storage. They anticipate the need for multi-PB storage within the next 18 months. In addition, they would prefer to use commodity hardware as well as open source technologies.

Which solution should be recommended?

A. Hadoop

- B. Cinder
- C. Ceph
- D. Swift

Answer: C

NEW QUESTION: 3

ABC Company wants to see which pages use the Reports - Standard template in a particular application. What three actions can be performed to find this information?

- A. Select the Utilization tab and view the pages referenced from the Shared Components > Templates page.
- B. Preview the template to see the list of pages that reference it.
- C. Select the references link for the template on the > Template page.
- D. Open the template and review the pages it references.
- E. Open each page in the application and review the templates section.

Answer: A,C,E

Explanation:

A: This is an awkward and time consuming solution.

C: Viewing Template Reports

Application Builder includes reports describing template utilization, subscription, published templates and edit history.

To view template reports for the current application:

- * Navigate to the Templates page.
- * On the Workspace home page, click the Application Builder icon.
- * Select an application.
- * Click Shared Components.
- * Under User Interface, select Templates.
- * You can narrow the display by making a selection from the following lists and clicking Go.
- * Template Name - Enter a case insensitive query.
- * Theme - View only templates in a specific theme.
- * Referenced - Select a type of template to display. Options include:
 - * All Templates
 - * Templates Referenced
 - * Templates Not Referenced
- * Type - Select a a type of template type.
- * Since - Restrict the report to a specific time frame. Select the amount of time to include in your report.
- * Subscribed - Specify whether to view All Templates, Subscribed Templates, or Not Subscribed Templates.
- * To view template reports, click the following tabs:
 - * Utilization displays template utilization in the current application for all template types (page, report, region, label and list).
 - * Subscription displays subscribed templates in your

application.

* History details recent changes to templates by developers and the last update date.

Incorrect answers:

B: We are interested not interested in the pages that are referenced by the template.

E: A preview of the template would not produce a list of pages that is referencing the template.
