NEW QUESTION: 1

Where do you define the relationship if you want to set up a relationship between Goals Content Type and Competencies Content Type?

- A.** Set up the relationship type as "Is Supported By on Goal Content Type."
- B.** Set up the relationship type as "Is Supported By on Goal and Competencies Content Type."
- C.** Set up the relationship type as "Is Supported By on

Competencies Content Type."

D. Set up the relationship type as "Is Related To on Competencies Content Type."

E. Set up the relationship type as "Is Related To on Goal and Competencies Content Type."

Answer: B

NEW QUESTION: 2

A. Management Plane
B. Web Application Firewall
C. Network Firewall
D. API Gateway

A. Management Plane

B. Web Application Firewall

C. Network Firewall

D. API Gateway

Answer: A

Explanation:

The management plane controls and configures the metastructure, and is also part of the metastructure itself. As a reminder, cloud computing is the act of taking physical assets (like networks and processors) and using them to build resource pools. Meta structure is the glue and guts to create, provision, and deprovision the pools. The management plane includes the interfaces for building and managing the cloud itself, but also the interfaces for cloud users to manage their own allocated resources of the cloud.
