Give up, The world is full of chicanery, Study ISO-31000-CLA Dumps but we are honest and professional in this area over ten years.

NEW QUESTION: 1
Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time.
When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to

you as it would be in a live environment, some functionality
(e.g., copy and paste, ability to navigate to external
websites) will not be possible by design.
Scoring is based on the outcome of performing the tasks stated
in the lab. In other words, it doesn't matter how you
accomplish the task, if you successfully perform it, you will
earn credit for that task.
Labs are not timed separately, and this exam may have more than
one lab that you must complete. You can use as much time as you
would like to complete each lab. But, you should manage your
time appropriately to ensure that you are able to complete the
lab(s) and all other sections of the exam in the time provided.
Please note that once you submit your work by clicking the Next
button within a lab, you will NOT be able to return to the lab.
You may now click next to proceed to the lab.
Instructions
Username and Password
Use the following login credentials as needed:
To enter your username, place your cursor in the Sign in box

Lab Instance: 11134591

You need to prevent members of a team named Retail from
creating new channels and editing the channels of the team.
To complete this task, sign in to Microsoft 365 admin portal.
Answer:
Explanation:
See explanation below
Explanation
As a team owner in Microsoft teams, go to the team name and
select More options > Manage team. From

there, you can access your team Settings tab, which lets you:
* Change the team picture.
* Set member permissions (like allowing them to create, update,
or delete channels and tabs).
* Enable @team or @[team name] mentions in a channel.
* Set permissions for guests.
* Enable team members to send GIFs, emoji, and stickers.

NEW QUESTION: 3
Which statement about the Cisco Secure ACS Solution Engine
TACACS+ AV pair is true?
A. AV pairs are only string values.
B. AV pairs are of two types: string and integer.
C. AV pairs are only required to be enabled on Cisco Secure ACS
for successful implementation.
D. The Cisco Secure ACS Solution Engine does not support
accounting AV pairs.
Answer: A
Explanation:
Explanation:
All TACACS+ values are strings. The concept of value type does
not exist in TACACS+ as
it does in Remote Access Dial-In User Service (RADIUS)
