After purchasing our MB-220 dumps PDF users will share one year service support, So many customers have been attracted by our MB-220 test guide material.

If you have some knowledge of our MB-220 best practice exam, you will be deeply attracted by it.

NEW QUESTION: 1
Thousands of parallel business processes are running in a production environment. The database administrator monitoring the Business Process Choreographer database observes that the amount of runtime data is filling up the available space and will reach the space limits very soon. What action should the deployment professional take to address the problem?
A. Review the database records and identify all work items for

completed process instances.
Advise the database administrator to remove all work item records for completed process
instances.
B. Verify if process instances in the database are completed and are not needed for any reporting.
Automate the process deletion using the deleteCompletedProcessInstances script.
C. Review the status of all process instances using the Business Process Choreographer
Explorer.
Manually delete all process instances that are in completed status.
D. Verify if the business integration applications in the environment provide different versions for
business processes.
Remove all unnecessary process templates using the deleteInvalidProcessTemplate script.
Answer: B

NEW QUESTION: 2
Which of the routers is the iLER for LSP B?

A. Router R1
B. Router R2
C. Router R4
D. Router R3
Answer: B

Answer: B,C

Explanation:
With multipart upload, you split the object you want to upload into individual parts. Individual parts can be as large as 50 GiB or as small as 10 MiB. (Object Storage waives the minimum part size restriction for the last uploaded part.) Decide what part number you want to use for each part. Part numbers can range from 1 to 10,000. You do not need to assign contiguous numbers, but Object Storage constructs the object by ordering part numbers in ascending order.
The maximum size for an uploaded object is 10 TiB
While a multipart upload is still active, you can keep adding parts as long as the total number is less than 10,000.
