If you don't have enough time to learn, C\_ARCON\_2108 test guide will make the best use of your spare time, With the C\_ARCON\_2108 dumps PDF, we have also designed the C\_ARCON\_2108 practice exam software that simulates the real exam environment.

You may think that it is not easy to obtain an **Visual C\_ARCON\_2108 Cert Exam** international certificate, In the information society, everything is changing rapidly.

**NEW QUESTION: 1**

- A. Thread
- B. ExecutorService
- C. Callable

- D. Future
- E. Runnable
- F. Executor

**Answer: B,C,F**

Explanation:

The java.util.concurrent package defines three executor interfaces:

\*(F) Executor, a simple interface that supports launching new tasks.

\*(A) ExecutorService, a subinterface of Executor, which adds features that help manage the lifecycle, both of the individual tasks and of the executor itself.

\*ScheduledExecutorService, a subinterface of ExecutorService, supports future and/or periodic execution of tasks.

Typically, variables that refer to executor objects are declared as one of these three interface types, not with an executor class type.

D: The ExecutorService interface supplements execute with a similar, but more versatile submit method. Like execute, submit accepts Runnable objects, but also accepts Callable objects, which allow the task to return a value.

Reference: The Java Tutorials, Executor Interfaces

**NEW QUESTION: 2**

PlusSphere Enterprise

PlusSphere Enterprise is a cloud-based network management solution that provides a comprehensive view of the network and its performance.
